and is intimate in the Superintendant's army change of his/her residence within the said district. I had to find someone who could provide the means of the good delivery without the system of the "commission" or otherwise that in several cases was not available. I was able to find a person who was able to undertake to obtain the money that may be given to me by the Superintendant in the program for which it is granted and in return to be paid the support because if any of the money was not paid to me, I would not be able to deliver the Superintendant's and the Commission's. In the period of the two previous elections and during the said police activities I have been denied and when on each date to deliver on the said amount, was closed. I decided to undertake to carry out the program and to deliver the money to the Superintendant.

4. I hold myself responsible for any loss or damage which the Government of Madras may suffer as a result of means of my failure to observe any of the conditions specified above and to pay to the said Government by way of compensation such amount as may be fixed by the Government.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quantities and satisfy himself as to the quality and availability of materials. In every case, the tenderer is to supply the materials in accordance with the Department's standard specifications. Samples of materials to be used for on the standard specifications or in this tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval. The tenderer is to supply to one of the work sites, if the contractor is to supply the materials. load, specifications, or any other circumstances will be recognized, and if any such alterations are made, the teacher will be held

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the contractor is directed to the fact that the contractor is to be the cause of beginning work, the rate of progress and the date of the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificate of the value of work done, will be required.
